1.

A. The only military installation that I can locate is an Infantry and Cavalry School Point #1, Encl (A). These buildings, approximately three or four stories high were located on Karl Marx Street Point #2, Encl (A) and constructed of brick with a slightly pitched tin metal roof.

2.

A. The MGB Headquarters Point #13, Encl (A) was located on October 25th Street Point #17, Encl (A) and covered the entire block area. The buildings were of brick with a slightly pitched tin metal roof. I am not certain but the MVD Headquarters may also have been located in the area. However, the MVD maintained an office in a two story wooden building Point #12, Encl (A). The NVD Headquarters may have been located in the former GPU building Point #6, Encl (A) on Communist Street Point #7, Encl (A). One section of this building was one story high and the other, two stories high. It was constructed of brick with a slightly pitched tin metal roof.
